**About:** Gaines Park provides high quality service in a loving environment that makes for a stress-free lifestyle for our Residents. There are a few ways to serve our facility and residents.

#### **WAYS TO SERVE:**

- **Bulletin Board:** We have a bulletin board for the residents. Students could create some small, colorful posters, no bigger than 8.5x11 (maybe even smaller), with words of encouragement, Scripture verses, lines from a song, art work, etc. Please add your name and age and attach a recent photo, so residents can see who contributed. It makes it so much more personal that way!
- **Bird Seed:** The residents at Gaines Park love watching the birds, but their families are not able to come into the courtyard to fill the bird feeders. Families may donate bags of birdseed. They may also drive around the perimeter of the building occasionally and refill the birdfeeders. Please call or e-mail the site contact first so they know who's driving and working around the building. Take a photo of this service project if you participate and send it to the site contact so it can be added to the residents' bulletin board. The residents are so proud of the MPCS students and all they do for Gaines Park!
- **Cards:** Residents would love cards, artwork, etc. Items can be dropped off on a table outside the front door. Just ring the bell, and someone will come to pick them up from there.
