

## 2021-2022 AP BIOLOGY SUMMER WORK

MPCS high school AP Biology students will be getting a jumpstart on their course content by working through the ecology unit in a self-paced, guided overview of the unit. This work will be assigned and completed in the MPCS Google Classroom. Students will be expected to have completed all work by the first day of class and be prepared to test within the first two weeks of school. Please check your email for an invitation to access the AP Biology Google Classroom. If you have not received one, please reach out to Dr. Stephens ([bstephens@mtparanschool.com](mailto:bstephens@mtparanschool.com)) for the class code.
